Skill Set

I am an experienced therapy provider for pediatric speech and language development including: receptive and expressive language disorder, articulation, phonology, childhood apraxia of speech, and fluency. I specialize in working with children and their families with mild to significant speech-language delays/disorders to become fully confident communicators.

Experience

SpeechAbility, LLC, Shawnee Mission, KS.

April 2014-Present

- Owner of speech-language pathology private practice serving children ages 0-18.

Shawnee Mission School District, Overland Park, KS.

August 2008-May 2014

- Evaluate and treat pre-school students 3-5 years of age in the self-contained, integrated classroom settings, and community/home settings using the coaching model.
- Worked with students (2008-2010) in grades K-6 in self-contained classrooms with severe speech-language needs and behavior.

Independent Private Practitioner, Warrensburg, MO.

August 2006-July 2008
